## Services

Marmetal maintains a sophisticated quality program which insures conformance with government, national, and customer standards. Marmetal's quality program has been audited and approved by numerous government and private agencies for compliance with nuclear and non-nuclear applications. Management makes quality a vital concern and influences its integration throughout the system. From vendor selection and control, through shipment to our customer, quality is always an integral part of the delivered product.

Marmetal has received the Supplier Delegated Inspector Certification Award for rod, bar, and plate from General Dynamics.
